THE MAGAZINE OF WESTERN LIVING

INDEX TO ALL EDITIONS • JANUARY 1972 TO DECEMBER 1972

HOW TO USE THIS INDEX

SUNSET *is published each month in four editions:* Northwest edition for Washington, Oregon, Idaho, and Alaska; Central edition for northern and central California, northern Nevada, and Utah; Southern California and Hawaii edition for coastal Southern California and Hawaii; Desert edition for southeastern California, southern Nevada, and Arizona. Because of the climate and other differences, many SUNSET articles run in only one or two of the four editions.

You can tell which edition of SUNSET *you read* by looking on the contents page of the magazine. At the upper left corner of the page you will see the name of the edition: Pacific Northwest, Central, Southern California and Hawaii, or Desert.

In the index listings, N denotes Northwest edition; C, Central edition; S, Southwest edition; and D, the Desert edition. The word "all" tells you that an article has appeared the same month and page in all four editions. Index listings are written as follows: May 76 N, C (May, page 76, Northwest and Central editions).

Whether you choose magazine files or the binder, your SUNSETS become more valuable to you. Copies are kept together neatly and attractively, protected against damage and ready for use.

Binder orders should specify the number of single units desired (each binder holds 12 issues) and the years you wish imprinted. Imprinting is available for each of the past ten years plus the current and following year. One binder: $2.50.

Magazine File orders should specify the number of pairs (a pair holds 12 issues) and the year of the index you wish with each pair. But *no year* need be specified for the files as they are not imprinted and may be used for *any* year. One pair magazines files, plus one index: $1.

Indexes are available for each of the past ten years (indexes are included in the price *only with magazine files;* ordered otherwise, 25¢ per index).

Please add 5% sales tax on all California orders.
